PRODUCT WARRANTY CONDITIONS AND LIMITATION OF LIABILITY

Fine Agrochemicals Limited ("FINE") warrants that this Product conforms to the specifications indicated on this label. FINE disclaims all other warranties, express or implied, including but not limited to warranties of merchantability and fitness for a particular purpose.

It is impossible to eliminate all risks associated with this Product. Plant injury, lack of performance, or other unintended consequences may result because of factors such as abnormal weather conditions, presence of other materials, the manner of application, use of the Product other than in strict accordance with this label's instructions or other factors, all of which are beyond the control of FINE or the seller. To the extent consistent with applicable law, all such risks shall be assumed by the Buyer.

FINE's liability under this label shall be limited to the amount of the purchase price or, at the election of FINE, the free replacement of the Product. FINE disclaims any liability whatsoever for special, incidental or consequential damages resulting from the handling or use of this Product.

DIRECTIONS FOR USE

Crop	Rate of application	Critical comments
Chrysanthemums	3 g/L	For branched pot plants, spray foliage 2 weeks after pinching. For single stem plants, spray 4 weeks after pinching
Poinsettias: To produce 40 cm plants To produce shorter plants	3 g/L 6 g/L	For single stem and pinched plants. Plants should be turgid. Spray late afternoon.
Azaleas	4.5 g/L	For compact prolific flowering plants, spray 2-3 weeks after final shaping
Gardenias	6 g/L	For compact plants with more buds, spray when 2/3 final marketing size
Bedding plants: Petunias, Marigold, Zinnias, Asters, Cosmos, Salvia.	6g/L	To form more compact plants and hold seedlings longer in trays. Spray petunias at 4-6 leaf stage. Spray other plants when first rapid upward growth begins.

NOT TO BE USED FOR ANY PURPOSE , OR IN ANY MANNER, CONTRARY TO THIS LABEL
UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.

GENERAL INSTRUCTIONS**Mixing**

Add the required amount of Dazide to the water in the spray tank under agitation.

Wetting agent

In all cases, the addition of 600 g/L non-ionic wetting and spreading agent at 10 ml per 100 litres of spray is recommended.

PRECAUTION STATEMENT**Re-entry periods**

Do not allow entry into treated areas for 1 day after treatment. When prior entry is necessary, wear long sleeved shirt, overalls, safety glasses and impervious gloves. Clothing must be washed after each day's use.

PROTECTION OF WILDLIFE, FISH AND ENVIRONMENT

DO NOT contaminate streams, rivers or waterways with the chemicals or used containers.

STORAGE AND DISPOSAL

Store in the closed, original container in a dry cool, well-ventilated area out of direct sunlight and away from children, animals, food, feedstuff, seed and fertilisers. Triple or preferably pressure rinse containers before disposal. Add rinsings to spray tanks. Do not dispose of undiluted chemicals on site. If recycling, replace cap and return clean containers to recycler or designated collection point. If not recycling, break, crush or puncture and bury empty containers in a local authority landfill. If no landfill is available, bury the containers below 500 mm in a disposal pit, specifically marked and set up for this purpose, clear of waterways, desirable vegetation and tree roots. Empty containers and product should NOT be burned.

SAFETY DIRECTIONS

May irritate the eyes. Avoid contact with eyes and skin. If product in eyes, wash it out immediately with water. After use, and before eating, drinking or smoking, wash hands, arms and face thoroughly with soap and water.

FIRST AID

If poisoning occurs, contact a doctor or Poisons Information Centre (phone 131 126).

MATERIAL SAFETY DATA SHEET

Additional information is listed in the Material Safety Data Sheet, which can be obtained from the supplier.
